

BNSW Left Leg of Shorts Logo Patch for Representative Competitions

Important Announcement 2 April 2009

- A number of associations have been having difficulties, for a variety of valid reasons, in having their BNSW left leg of shorts logos applied by the due date. These associations have contacted BNSW as per the BNSW Statement “BNSW Left Leg of Shorts Logo Patch for Representative Competitions - Information and Clarification” which is posted on the BNSW web site and has been distributed to Associations. BNSW has considered the requests and granted each association an appropriate extension in their period of grace to allow them to comply with the left leg logo requirements. Hence, a number of associations may be competing in the upcoming rounds without the logos in place, but will have the specific approval of BNSW to do so.
- Associations that do not yet have logos affixed and have not applied to BNSW with grounds for extension of their period of grace are reminded again that they must do this with good reasons PRIOR to the next round of competitions.
- Associations that do not have the logos in place and have not applied for and received an extension of their period of grace from BNSW are subject to penalties under the competition by-laws.

A handwritten signature in black ink, appearing to read 'Daniel Martinez', is positioned above the typed name.
